THE SANTORINI

Paris Sigalas and his eponymous winery have been setting the tone for modern Assyrtiko since its founding in 1991. They are the first winery to experiment with bottling fruit from individual vineyards rather than blending from grapes picked across the (tiny) island.

SE7EN

We have **one of each of the seven individual vineyard bottlings** and are SO EXCITED to have a reason to open and share them with you one-by-one, **starting in the north and moving south as supplies last!**

Santorini Fun Facts:

~ viticulture has been a part of the island since the 17th century BC

~ in 1620BC a MASSIVE volcanic eruption blasted the island to pieces and spread as far south as Crete

~ today about 1,400ha are planted from sea level to the terraces on the caldera around 250m up in elevation

~ soil is a mixture of volcanic ash and pumice, sand, and layers of magnesium and ferrous iron
